WORK EXPERIENCE

Klick Health

Associate Technical Director

Sep 2021 - Jul 2022

Senior Web Developer

Oct 2014 - Sep 2021

- Personally lead and oversaw development of **12 responsive websites in AEM** by authoring, **.Net framework**, and creating **SASS boilerplate** with reusable mixins, functions, and settings. Wrote complex **Javascript (ES6)** such as keyboard accessible modal with tab index trapping, navigation, carousel, and multi-step form.
- Supporting and managing 5 front end developers** and interns by engaging in Slack and weekly one on one, both about work and non-work related matters.
- Completed **7 component mappings, user stories, style guide**, and **acceptance criteria** during project discovery phase.
- Wrote over **30 detailed SOP documents**, front end process flowchart, and **15 video lessons** (with average of 5 minutes) that have been shared for training and onboarding.
- Regularly completed **rapid proof of concepts** for feasibility, development support, and demonstrations.
- Built **close relations with various departments** by learning their unique workflow and **improving efficiency through technology**, resulting in saving significant time.
- Utilized **Sketch, Figma**, and **Adobe Creative Suite** to create component mapping, complete wireframe, site design, style guide, and graphic support for developers.

SKILLS

- HTML SASS/CSS ES6 Javascript
- Familiarity with React JQuery Emmet
- Creating/Setting up Boilerplate
